

Languages Curriculum Statement

Curriculum Intent

St Mary's And All Saints CE Primary School intends to use the Language Angels scheme of work (French) and resources to ensure we offer a relevant, broad, vibrant and ambitious foreign languages curriculum that will inspire and excite our pupils using a wide variety of topics and themes. All pupils will be expected to achieve their full potential by encouraging high expectations and excellent standards in their foreign language learning - the ultimate aim being that pupils will feel willing and able to continue studying languages beyond Key stage Two.

Our Scheme of work will be continuously updated and reviewed annually, ensuring we maintain a dynamic programme of study that will be clearly outlined in both long-term and medium-term planning. This will ensure that the foreign language knowledge of our pupils progresses within each academic year and is extended year upon year throughout the primary phase and, in so doing, will always be relevant and in line with meeting or exceeding national DfE requirements.

The four key language learning skills; **listening, speaking, reading and writing** will be taught and all necessary **grammar** will be covered in an age-appropriate way across the primary phase. This will enable pupils to use and apply their learning in a variety of contexts, laying down solid foundations for future language learning and also helping the children improve overall attainment in other subject areas. In addition, the children will be taught how to look up and research language they are unsure of and they will have a bank of reference materials to help them with their spoken and written tasks going forward. This bank of reference materials will develop into a reference library to help pupils recall and build on previous knowledge throughout their primary school language learning journey.

The intent is that all pupils will develop a genuine interest and positive curiosity about foreign languages, finding them enjoyable and stimulating. Learning a second language will also offer pupils the opportunity to explore relationships between language and identity, develop a deeper understanding of other cultures and the world around them with a better awareness of self, others and cultural differences. The intention is that they will be working towards becoming life-long language learners.

Implementation

All classes will have access to a very high-quality foreign languages curriculum using the Language Angels scheme of work and resources. This will progressively develop pupil skills in foreign languages through regularly taught and well-planned weekly lessons in Key Stage 2 which will be taught by class teachers.

Children will progressively acquire, use and apply a growing bank of vocabulary, language skills and grammatical knowledge organised around age-appropriate topics and themes - building blocks of language into more complex, fluent and authentic language.

All teachers will know where every child is at any point in their foreign language learning journey.

Lessons offering appropriate levels of challenge and stretch will be taught at all times to ensure pupils learn effectively, continuously building their knowledge of and enthusiasm for the language(s) they are learning.

Language Angels are categorised by '**Teaching Type**' and this is used to ensure an appropriate level of challenge and stretch for the classes.

Early Language units are entry level units and are most appropriate Year 3 pupils or pupils with little or no previous foreign language learning. **Intermediate** units increase the level of challenge by increasing the amount and complexity (including foreign language grammar concepts) of the foreign language presented to pupils. Intermediate units are suitable for Year 4-5 pupils or pupils with embedded basic knowledge of the

foreign language. **Progressive** and **Creative Curriculum** units are the most challenging units and are suitable for Year 6 pupils or pupils with a good understanding of the basics of the language they are learning. Grouping units into these **Teaching Type** categories ensures that the language taught is appropriate to the level of the class and introduced when the children are ready. Children will be taught how to listen and read longer pieces of text gradually in the foreign language and they will have ample opportunities to speak, listen to, read and write the language being taught with and without scaffolds, frames and varying levels of support.

Units are progressive within themselves as subsequent lessons within a unit build on the language and knowledge taught in previous lessons. As pupils progress through the lessons in a unit they will build their knowledge and develop the complexity of the language they use.

Pupil learning and progression will be assessed at regular intervals in line with school policy. Teachers will aim to assess each language skill (**speaking, listening, reading and writing**) twice throughout each scholastic year to be able to provide reference points against which learning and progression in each skill can be demonstrated.

Curriculum Impact

The opportunity to assess pupil learning and progression in the key language skills (speaking, listening, reading and writing) and against the 12 DfE Languages Programme of Study for Key Stage 2 attainment targets is provided at the end of each 6-week teaching unit. This information will be recorded and will be monitored by the Foreign Language Subject Leader who can use this data to ensure teaching is targeted and appropriate for each pupil, class and year group as well as to feedback on progress to SLT and stakeholders.

Children are expected to make good or better than good progress in their foreign language learning and their individual progress is tracked and reported to pupils and parents / carers in line with school recommendations.

If pupils are not progressing in line with expectations, this will be identified in the End of Unit Skills Assessments. This will enable teachers to put in place an early intervention programme to address any areas that require attention in any of the language learning skills.
